## Site of the Semester

- Networked Knowledge by Dr Robert N Moles
  (A highly useful website maintained by Dr Robert N Moles of South Australia. The aim of this site is to investigate and provide information on alleged serious miscarriages of justice that have occurred in South Australia over the last 30 years. Dr. Moles has brought together a unique legal team of lawyers, legal advisers, and even an expert team of people in the medical, scientific and investigative fields to ensure that these issues do not continue to be brushed under the carpet. I have gone through the site and found it very informative. Highly recommended!)

## Highly Recommended Links

- Forensic Document Consultant, an excellent website by Tilak Nehra
  (A highly useful website maintained by Tilak Nehra of India. I have had the pleasure of interacting with him personally especially in several live radio programs. He is a highly qualified document examiner and has solved some of the most complicated cases related to document examination. It is an education to sit with him and listen to his cases. I am told he takes private cases also. His site is highly recommended!)
