Supervisor
Dr. S.K. Khanna
M.D., LL.B.
Professor of Forensic Medicine
Maulana Azad Medical College
& Associated Lok Nayak
G.B. Pant & G.N.E.C., Hospitals
New Delhi- 110002

Acknowledgement

Any task requires a mind and hands working in co-ordination. The hands for this study happened to be mine, but the mastermind behind it belonged to Dr. S.K. Khanna, Professor of Forensic Medicine.

It would be futile to express in words, the heart, which is filled with gratitude and respect for him. He has magnanimously helped me overcome every hurdle by his guidance and supervision. His acuity of vision and perspicacity of thought have made this study a success.

I express sincere gratitude to my Head of Department Dr. P.C. Dikshit, Professor of Forensic Medicine for his fatherly presence and invaluable moral support. With wisdom, earnestness and patience he has motivated and guided me towards excellence during the period of my study under his benign aegis.

I am especially thankful to Professor Anil Aggarwal - who taught me the various techniques of dissection of the heart-, Dr. Anil Mittal and Dr. D.V. Saharan for their keen interest and encouragement which have contributed immensely.

I am thankful to my colleagues who have rendered help and support in various ways, to the technical staff of Department of Forensic Medicine for their cooperation and to Mrs. Renuka Saha Asstt.Professor, Statistics for useful inputs in the statistical analysis.

Last but not the least; I pay respectful homage to all the departed souls who left behind their mortal remains without which this study would not have been possible.

Sreenivas M.
